2. The subject matter of the proposed rule:

In December 1996, the Arizona Corporation Commission adopted the Retail Electric Competition Rules (A.A.C. R14-2-1601 et seq.). These rules included the Solar Portfolio Standard (R14-2-1609) and established a number of working groups to consider possible modifications of the rules. One of the working groups created the Solar Portfolio Standard Subcommittee.

In the spring of 1998, Commission staff incorporated most of the Subcommittee recommendations into proposed rule amendments, and those changes were approved by the Commission on August 10 and December 11, 1998.

On April 23, 1999, the Commission proposed additional amendments to the Retail Electric Competition Rules. Included was the recommendation to eliminate the Solar Portfolio Standard. The Commission also decided to open a docket and commence an inquiry into and a hearing process for modification of the former Solar Portfolio Standard, to include broadening of the scope of the Standard to technologies other than solar electricity and the costs and ratepayer impact of such a Standard for ratemaking.

On May 4, 2000, the Commission approved an Environmental Portfolio Standard and ordered staff to open a rule-making docket to process the revised Portfolio Standard rule which now becomes R14-2-1618. This Notice replaces the former Notice of Rulemaking Docket Opening filed on June 18, 1999.

The time and place where oral and written comments may be made will be established by the Arizona Corporation Commission in its decision authorizing the filing of the Notice of Proposed Rulemaking with the Office of the Secretary of State or by procedural order following the Commission's decision. The date, time, and place for public comment will be in the Notice of Proposed Rulemaking.

6. A timetable for agency decisions or other action on the proceeding, if known:
